

CLASS Pre-Training Exercise

This exercise is intended to help you become more familiar with the CLASS dimensions. Please complete this exercise after reading through the manual.

Log into the CLASS website (www.teachstone.org) using the log-in and password that were e-mailed to you. Watch at least 3 video clips on each dimension. Take notes on the *specific* behaviors you see in the segment that reflect the dimension. We will talk about these during the training. Negative Climate is not included; we will provide examples of these during the training.

Positive Climate
Teacher Sensitivity
Regard for Student Perspectives
Behavior Management

Productivity

Concept Development

Instructional Learning Formats

Quality of Feedback

Language Modeling
